

ComicCraft – AI Comic Story Creator

Brainstorming and Ideation

ComicCraft was conceived as an AI-powered web application that turns a user's idea into a personalized comic story with illustrations.

Key Activities / Deliverables

- Generate a comic from a short user prompt.
- Produce a panel-by-panel story with narration and dialogue.
- Allow personalization through character name, setting, tone, and art style.
- Provide an end-to-end flow from prompt entry to comic preview and PDF export.
- Use generative AI for storytelling and comic-style image creation.
