

ComicCraft – AI Comic Story Creator

Requirement Analysis

The requirements define the information ComicCraft accepts, the content it generates, and the technology required to run the workflow.

Key Activities / Deliverables

- Collect story prompt, main character name, setting, story tone, and art style.
- Generate a structured five-panel outline.
- Generate narration and character dialogue.
- Generate an illustration for each panel.
- Display the generated comic in a web preview.
- Export the complete comic as a PDF.
- Support browser-form and JSON API generation workflows.
- Use Python, FastAPI, Uvicorn, Jinja2, Gemini APIs, Diffusers/Stable Diffusion, Pillow, and FPDF.
