

ComicCraft – AI Comic Story Creator

Project Documentation

Documentation records the architecture, prerequisites, workflow, functions, routes, templates, deployment steps, and user experience of ComicCraft.

Key Activities / Deliverables

- Document project objectives and scenarios.
- Record prerequisites including Python, FastAPI, Gemini, Diffusers, PyTorch, FPDF, and Git.
- Document project workflow and milestones.
- Explain each core generation function and its file.
- Document FastAPI routes and input fields.
- Describe frontend templates and dynamic Jinja2 rendering.
- Document environment variables such as GEMINI_API_KEY and HF_API_KEY.
- Record local setup and deployment commands.
